Remote Learning Schedule- Spring 2020

Expectations for Students:

- Students are expected to engage to the best of their ability with remote learning opportunities provided by their teachers.
- Students will engage in 5 hours of Remote Learning for each course they are enrolled per week. The delivery of this instruction will be as follows:
 - 2 Hours of “Live Support”/ “Check-In” during class time listed on the schedule above. Your teacher will communicate how this will be facilitated.
 - 3 Hours of “Pre-Recorded or Posted” Options where students will access new content and work independently on assignments, activities, and assessments.
- Students who may not be available to attend scheduled or “live” sessions should check in with their teachers via email or approved communication methods at least once per week. Methods of communication or information can be found below as well as on the school’s website or well as your teacher’s website.
- While engaging in any “live” virtual interactions, students should conduct themselves appropriately and utilize their technology only for academic purposes. Teachers will have the ability to limit or revoke students’ permission to virtually join “live” learning sessions if students do not conduct themselves appropriately.
